NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8907; NRC-2014-0096]
United Nuclear Corporation

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is seeking comment from interested parties on the license amendment application request from United Nuclear Corporation (UNC or the licensee), a subsidiary of General Electric (GE), for a 5-year extension for the final emplacement of the radon barrier and erosion protection for the UNC Church Rock Mill site located in McKinley County, New Mexico. Specifically, UNC is requesting an amendment to Source Material License No. SUA-1475, for License Conditions 35.A(3) and 35.B(1), which would extend the dates for emplacement of the final radon barrier and the erosion protection from December 31, 2014, to December 31, 2019.

DATES: Submit comments by **[INSERT DATE 30 DAYS FROM DATE OF PUBLICATION]**. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDRESSES: You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

B. Submitting Comments

Please include Docket ID **NRC-2014-0096** in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at http://www.regulations.gov as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that

they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Introduction and Solicitation of Comments.

The NRC has received, by letter dated September 18, 2013, an application to amend Source Materials License No. SUA-1475 (the UNC license) for the UNC Church Rock Mill site located in New Mexico (ADAMS Accession Nos. ML13277A287, ML13266A361). Specifically, UNC, a subsidiary of General Electric (GE), requested to extend the projected dates for 1) the completion of groundwater corrective actions, and 2) the emplacement of the final radon barrier and erosion protection for the UNC Church Rock Mill Site. On November 7, 2013, the NRC issued License Amendment No. 48, subsequently corrected by License Amendment No. 49 (ADAMS Accession Nos. ML13277A287 and ML14043A475), granting the licensee's request regarding its groundwater corrective actions. However, prior to making a final determination on the UNC's second request to extend the date for emplacing the final radon barrier and the erosion protection, the NRC is providing an opportunity for public participation required under Criterion 6A(2) of Appendix A to Title 10 of the *Code of Federal Regulations* Part 40, through the provision of this opportunity to provide comments. Specific comments are requested on the requested changes to License Conditions 35.A(3) and 35.B(1), which would

extend the date for emplacement of the final radon barrier and the erosion protection from December 31, 2014 to December 31, 2019. Comments should be provided within 30 days of the publication date of this notice.

Dated at Rockville, Maryland this 17th day of April 2014.

For the Nuclear Regulatory Commission.

Andrew Persinko, Deputy Director,
Decommissioning and Uranium Recovery
Licensing Directorate,
Division of Waste Management
and Environmental Protection,
Office of Federal and State Materials
and Environmental Management Programs.
